**PRESENTATION**

Crux is a Belgian CD and DVD factory and we will be at the Children's Book Fair in Bologna. We will gladly explain our services and production capabilities. We have completely automated CD and DVD packaging lines. We can print your discs in offset, screen and flexography. We have two digital printing presses for booklets, inlays and other promotion materials. We can even print the BOPP foil around the boxes or books for extra protection of your intellectual property. As a specialist in educational materials Crux refuses to replicate pornographic or adult materials to prevent mishaps (although we have inline inspection stations to prevent printing the wrongs discs). Our manager at the fair speaks fluently French, English, German and Dutch (his Spanish is a bit rusty). He has a publishing background so he can anticipate your needs.

**Hall 30, stand D 12**
